Committee Membership (applies to all Chartered ABS committees)

1. The Committee will make use and maximise the diversity and differences apparent within our Business School community; this includes, but is not limited to gender, race, skills, experiences, religion, sexual orientation, and other facets of diversity.

2. More specific to the Business School community, consideration should also be given to university mission group, geographic location, career stage, career pathways and other facets of organisational diversity.

3. In choosing or reviewing membership of the committee, member selection will consider the benefits of having a diverse and inclusive committee. This may manifest itself through active monitoring and recruitment of members from communities that represent one or more protected characteristic(s) and/or selecting members that traditionally are underrepresented in business schools. Where possible, good practice will be reviewed and implemented in our own organisations and Chartered ABS.

4. Where the nature of the committee restricts membership candidature (such as the need to hold specific roles within a business school), the ToR should include the need to consider whether other representative members can be co-opted and should be supplemented with a clear statement on how the committee will engage a diverse range of voices, reflecting the spirit of these membership guidance.

5. Attention will be paid to the intersectionality of diverse identities and how this is reflected within the committee and its decisions.
